中国·洛阳 / LUOYANG · CHINA

洛阳市大资塑业有限公司成立于2013年9月，位于新安县南李村镇，注册资金1亿元，是一家集拉丝、圆织、吊带、围带、涂膜、吹膜、缝纫及附件材料生产的全方位一体化集装袋生产企业，现有员工450多人，占地面积110亩，拥有现代化集装袋生产车间4个，总资产2亿元。除了大资本部，公司还在海外建立集装袋工厂1个。

近年来，公司对内强化企业管理，对外狠抓市场开拓，不断优化调整、转型升级、创新发展，顺利通过质量管理、环境管理、职业健康安全、能源管理及食品安全管理等五大体系认证。一流的生产设备、先进的生产工艺、科学的管理体系、完善的市场服务、奋斗的拼搏精神，公司年产化工级集装袋600万条、食品级集装袋150万条、基布30000吨、吊带15000吨，公司旗下的进出口公司年销售原材料10万吨。产品达到国际标准，出口到东南亚、中亚、南美、欧洲等50多个国家和地区，公司荣获国家高新技术企业、河南省专精特新中小企业、河南省智能车间、河南省企业技术中心等称号。

展望未来，大资公司将贯彻落实党的二十大精神，坚定不移贯彻新发展理念，为促进洛阳市经济社会的发展及乡村振兴做出积极的贡献！

Luoyang Dazi Plastic Industry Co., Ltd. was established in September 2013. It is located in Nanlicun Town, Xin'an County, with a registered capital of 100 million yuan. The company is a comprehensive integrated container bag production enterprise that integrates the production of yarn drawing, circular weaving, webbing, film coating, film blowing, sewing and accessories. Covering an area of 110 acres, it currently has 4 modern container bag production workshops with more than 450 employees, achieving a total asset of 200 million yuan. In addition to the headquarter in Luoyang, the company has also established a container bag factory overseas.

In recent years, the company has successfully passed five system certifications of quality management, environmental management, occupational health and safety management, energy management, and food safety management through continuously optimized adjustments, transformation and upgrading, and innovative development, which are specifically reflected in the measures of strengthening enterprise management internally and paying close attention to market development. With the support of first-class production equipment, advanced production technology, scientific management systems, and comprehensive detection methods, the company has an annual production of 6 million Industrial grade container bags, 1.5 million food-grade container bags, 30,000 tons of PP fabric and 15,000 tons of PP webbing. Moreover, the company's annual import and export sales of raw materials has reached 100,000 tons. As the products meet international standards, the company has made business contacts with more than 50 countries and regions such as Southeast Asia, Central Asia, South America, and Europe, etc. The company is honored to win the titles of National High-tech Enterprise, Specialized, Refined, Distinctive and Novel Small and Medium-sized Enterprise in Henan Province, Henan Intelligent Workshop, Henan Enterprise Technology Center, etc.

Looking forward to the future, Dazi Company will put the guiding principles of 20th National Congress of the Communist Party of China into practice, steadfastly apply the New Development Philosophy, and make positive contributions to the promotion of economic and social development and rural revitalization in Luoyang City.

大资公司将以万众一心、万念一处、万箭齐发、万力一孔的决心，以世界级、同品类第一的标准，以专、精、特、新的精神，创新在塑编集装袋行业的领先地位，为客户提供最具诚信和增值的市场服务。

With the determination that the whole company unites as one man, our company innovates and makes progress with professional, proficient, deep, and thorough craftsmanship, and at the same time we strive for the leading position of the plastic woven industry of container bags to become world renowned and NO.1 in its counterparts. In short, our company dedicates ourselves to providing customers with the most honest and value-added market services.

类别 GRADE	牌号 BRAND CODE	熔融指数 MFR(g/10min)	用途 APPLICATION
拉丝类 RAFFIA DRAWING	T30S	2-4	Braided belt, rope, carpet backing, container bag, woven bag
	1102K	3.4 ± 1	Widely used in the production of woven bags, (shading or covering) color strips, carpet backing (base fabric), container bags, tarpaulins and ropes, and can also be used as blown film
	S1003	2-4	Braided belt, rope, carpet backing, container bag, woven bag
	L5E89	2-4	Braided belt, rope, carpet backing, container bag, woven bag
注塑类 INJECTION	HP500N	12	Furniture, partitions and containers, etc. Suitable for food contact.
	HP500P	12-22	Thin-walled products, household goods, lids and covers for various containers
	V30G	15-17	Home appliances, electric wire, container, car crash bar, hinge, car dashbord
	M800E	5.5-10.5	Used in the production of various transparent products
纤维类 FIBER	M60T	60 ± 6.0	Food grade, sports equipment, thin-walled products etc.
	Y26	26	Non-woven, high-speed spinning, fine denier staple fiber, continuous filament, non-woven fabric
	Z30S	18-32	High-speed spinning, carpets, sportswear, tapes.
	Y35	30-44	Non-woven, high-speed spinning, fine denier staple fiber, continuous filament, non-woven fabric
抗冲共聚类 IMPACT COPOLYMER	S2040	33-43	Non-woven, high-speed spinning, fine denier staple fiber, continuous filament, non-woven fabric
	K9928H	28	Washing machine parts, auto parts, home appliance housings
	EP300R	30	Washing machine tub, Electrical appliances, Housewares
	EP533N	28-33	Automotive Dashboard Interior Parts, Auto parts, household appliances
	EP548R	27-33	Household daily necessities, washing machines, automotive applications, packaging, furniture, small appliances
	EPS30R	0.5-2.5	Packaging turnover box, paint bucket, high impact plastic box container plastic bucket
	EP200K	3.17	Battery box, blow molding, sheet, furniture, turnover box
	K8003	2-3	Heavy-duty parts, auto parts and other products
	K8009	8.5	Auto parts, electrical appliances, battery boxes, rice cake cookers, etc.
无规共聚物 RANDOM COPOLYMER	SP179	8	Automobile industry and home appliance industry, manufacturing automobile bumpers, automobile interior parts, automobile side protectors
	4220	0.25 ± 0.10	Hot and cold water pipe material pipe grade
	K4912	12	Antistatic Applied to Rigid Packaging Household Goods
	HCM450	41.3	Disposable milk tea cup, Lunch box, Fresh-Keeping Box, Storage Box.
	MT500B	50.0 ± 5.0	Food packaging box Cosmetic box
	RP260	7-9	Widely used in the application of infusion plastic bottles
薄壁注塑类 THIN WALL INJECTION	RP340R	25	Sports, leisure and toy products, household utensils, packaging industry, etc.
	H9018	54	Thin-walled food container
	EP548T	47-53	Thin Wall Packaging Margarine Tubs Household Goods
	1450T	45-50	Thin-walled food container
	H9018H	52-68	Thin-walled food container
	MN70	65-85	Disposable lunch box injection plastic
	K7760H	50-70	Thin-walled food container
吹塑类 BLOW MOLDING	K7100	90-120	Thin-walled food container
	M250E	1.8-3.2	Stationery, Hollow blow molding transparent, thermoforming product, Medical saline bottle etc.

聚乙烯

Polyethylene(PE)

高密度聚乙烯 HDPE

类别 GRADE	牌号 BRAND CODE	熔融指数 MFR(g/10min)	用途 APPLICATION
拉丝类 RAFFIA DRAWING	5000S (L501)	0.9	Extrusion molding, suitable for high mechanical strength rope and mesh monofilament
	7750M	0.8-1.3	Extrusion molding, suitable for high mechanical strength rope and mesh monofilament
中空类 HOLLOW	5502	0.2-0.25	Used for detergents, cosmetics bottles, industrial chemical containers, etc
	5420	2.1-2.5	Large hollow container with high corrosion resistance and melting resistance
注塑类 INJECTION	2911	20	Injection molding grade, used for furniture, general containers, turnover boxes, pallets, safety helmets, daily necessities
	8920	20	Injection molding grade, used for furniture, general containers, turnover boxes, pallets, safety helmets, daily necessities
	M572(3000JE)	2.2 ± 0.2	High tenacity cap material, container plastic lid, beverage lid
	8008	8	Used for turnover boxes, household necessities, especially suitable for bottled turnover boxes such as milk and beer
	7260	7	Used for turnover boxes, household necessities, especially suitable for bottled turnover boxes such as milk and beer
膜类 FILM	6095	10 ± 3.0	Packaging Containers - Plastic Packaging - Plastic Bags - Shopping Bags.
	6097	0.25	High strength film material production shopping bags, handbags, packaging bags
	6098	11 ± 4.0	Shopping Bags, Grocery Bags, Multi-Layer Lining Films, Weather-Resistant Films
管材 PIPE	2480	10-15	Grade 80 pipe material
	PN049	0.3	Used for production water pipes, gas pipes, and large diameter pipes
	P5003D-B (YGH041)	0.27 ± 0.05	Used for pressure pipes, irrigation and sewage pipes, relining pipes, seawater discharge pipes, large diameter pipes, and thin wall pipes.
	YGH041T	0.28 ± 0.05	Base resin for pressure pipes such as water, gas, waste, relining, seawater outfall and industrial pipe, black high density polyethylen Black pressure pipes, PE100 water pipes, PE100 air pipes, irrigation and sewage pipes, relining pipes, seawater discharge pipes, large diameter pipes, thin wall pipes
	N3000B	0.30 ± 0.06	Black gas pipe compound butyl rubber antistatic
	100S	0.20-0.26	Grade 100 pipe material
	100N	0.19-0.25	Grade 100 pipe material

低密度聚乙烯 LDPE

类别 GRADE	牌号 BRAND CODE	熔融指数 MFR(g/10min)	用途 APPLICATION
薄膜类 FILM	2426H	2	Containing a smoothing agent and an opening agent, it can be used as a laminated film, a cryogenic packaging film grade shopping bag, and other daily packaging agricultural film (shed film)
	LD100AC	2.0 ± 0.30	Agricultural film, shrink film, transparent film, various packaging bags, Electric material
	2426K	4	Used for blown packaging film, agricultural film, also used for foaming, cable, makeup and other daily hose extrusion, and can be blended with LLDPE for compound modification
发泡注塑 FOAM INJECTION MOLDING	LD605	6.0 ± 1.3	Ultra-thin film, fruit netting
薄膜及挤塑 FILM EXTRUSION	2102TN26	2.4 ± 0.60	Good opening and smoothness, and is mainly suitable for making packaging films, agricultural land films, air cushion films, pearl cotton, bottle caps, etc.
薄膜及注塑类 FILM INJECTION	18D	1.5	Suitable for various thin films and small products
重包装类 HEAVY DUTY PACKAGING	2426F	0.7	Daily packaging bag, high transparent shrinkage
	1810D	0.3	Used for heavy packaging film, shrink film, greenhouse film, and cable material
	2420D	0.3	Used for heavy packaging film, shrink film, greenhouse film, and cable material
涂覆类 COATING	1C7A	7	Used for coating, textile coating, etc
	LD251	8	Used for coating, textile coating, etc

线性低密度聚乙烯 LLDPE

类别 GRADE	牌号 BRAND CODE	熔融指数 MFR(g/10min)	用途 APPLICATION
农地膜类 AGRICULTURAL FILM	7042	2	Film grade, suitable for various agricultural films, plastic films, daily packaging bags, garbage bags, and various injection molded parts, film products, agricultural small diameter drainage pipes, etc
	7050	2	Film grade, suitable for various agricultural films, plastic films, daily packaging bags, garbage bags, and various injection molded parts, film products, agricultural small diameter drainage pipes, etc
棚膜类 GREENHOUSE FILM	9047	1	Used for plastic film, greenhouse film, heavy load packaging bags, food bags
薄膜类 FILM	LL0209AA	0.8-1.2	"Heavy packaging film, agricultural film, building reel and co-extruded film, etc., can also be used for blending to increase the performance of LDPE."
高熔类 HIGH MELTING	8320	20	High melting figure shed film
滚塑料 颗粒 ROTATIONAL MOLDING RESIN	7149U (R334L)	3.50-5.30	Manufacturing rolling products, large outdoor toys, storage tanks, barricades, roadblocks etc.
滚塑料 颗粒 ROTATIONAL MOLDING RESIN	7151U (R335L)	5.5 ± 1.2	Manufacturing rolling products, large outdoor toys, storage tanks, barricades, roadblocks etc.
滚塑料 粉末 ROTATIONAL MOLDING POWDER	7149U (R334L)	3.50-5.30	Manufacturing rolling products, large outdoor toys, storage tanks, barricades, roadblocks etc.
滚塑料 粉末 ROTATIONAL MOLDING POWDER	7151U (R335L)	5.5 ± 1.2	Manufacturing rolling products, large outdoor toys, storage tanks, barricades, roadblocks etc.

拉丝 / 工序 Yarn drawing process

拥有国内先进的拉丝机，可生产各种丹尼尔数的扁丝、硬丝、三折叠丝。以先进的设备、领先的工艺、规范的管理、严格的检测、极高的生产效率，做好集装袋生产的第一步，为后续工序打下坚实的基础。

With advanced flat yarn drawing machines, our company can weave flat yarn, hard strength yarn and triple fold yarn with different deniers. The advanced machines, leading technology, standardized management, strict examination and high production efficiency, could guarantee a good job in the first step of container bag production, and lay a solid foundation for subsequent working procedure.

圆织 / 工序 Circular weaving process

可生产各种颜色、规格、重量的编织布、基布，拥有熟练的操作工，6S管理的生产车间，严格的布面检查，保证布面光滑，布卷干净，质量上乘。

Our company can produce a variety of color, specifications, and weight weaving fabric and PP fabric. Coupled with skilled operators, 6S managed production workshops, and strict inspection, we ensure smooth fabric surface, clean fabric rolls, and top fabric quality.

织带/工序 Webbing process

可编织常规吊带、围带、硬丝吊带及各种颜色、规格的吊带，各批次吊带均经过严格的拉力、克重、伸长、抗氧化等质量检测，保证产品质量。

Our company can weave conventional pp webbing, hard strength pp webbing and various pp webbing with different colors and specifications. Each batch of pp webbing has been tested by strict quality testing such as tension, weight, elongation, and antioxidant to ensure product quality.

吹膜涂膜/工序 Film blowing and coating process

可生产各类产品厚度均匀、拉力优良膜片，且满足不同宽度基布的涂膜要求。可根据客户要求调整涂膜料比及厚度，保证涂膜粘合度，严格质量管理，不断提升产能，满足客户需求。

Our company can produce all kinds of films with uniform thickness and excellent tensile strength, and meet the coating film requirements of PP fabrics with different widths. The film material ratio and thickness can be adjusted according to customer requirements on the basis of ensuring the adhesion of the coating film. We will try our best to meet customer needs through strict quality management and continuous improvement of production capacity.

缝纫线 防渗棉条 丙(涤)纶吊带 / 工序 Sewing thread, Polyester filler cord, polypropylene (polyester) webbing process

采用国内先进的设备，生产各种型号及规格的缝纫线、防渗棉条、丙纶丝吊带、涤纶丝吊带及无纺布，具有拉力优良、耐磨防晒、防渗透、抗老化、强度高特性，可满足广大客户的品质需求。

Our company adopts domestic advanced equipment to produce sewing threads, impermeable silver, polypropylene webbing, polyester webbing and non-woven fabrics with excellent tensile strength, wear resistance, sun protection, anti-penetration, anti-aging, high strength and other properties, which can meet the quality needs of our customers.

裁切打包 / 工序 Cutting and Packaging Process

采用自动化、先进的裁切设备，灵活运用热切、冷切，裁切速度快、精度高、质量好，裁切后切口整齐、布面整洁，为之后的缝纫工序提供保障。拥有不同规格、压力的打包机，一流的打包技术，打包速度快、效率高、干净整齐，可根据产品种类及客户要求，减少货运空间，帮助客户节约成本。

Our company adopts automatic and advanced cutting equipment, flexibly applies hot cutting and cold cutting technology to achieve fast cutting speed, high precision, good quality, neat incision and neat cloth surface after cutting. Besides, the cutting is neat and the cloth surface is clean and tidy after cutting, which provides guarantee for the subsequent sewing process. Besides, our company has packaging machines with different specifications and different pressure values, coupled with first-class packaging technology of workers, so that our products can be packed quickly with high efficiency as well as clean and tidy. Our company can use the advantages of the packaging process to reduce the freight space and help customers save costs according to different product types and customer requirements.

缝纫线 Sewing thread

防渗棉条 Polyester filler cord

丙(涤)纶丝吊带 Polypropylene(Polyester)webbing

无纺布 Non-woven fabric

缝纫 / 工序 Sewing Process

拥有不同型号的集装袋缝纫机、锁边机、链锁一体机，可缝纫多种厚度、规格的集装袋。工人操作熟练，缝纫线迹优良，缝线紧密不泄露。无尘化生产车间，保证集装袋干净整洁，可承接食品级、危险品级等各类高标准、复杂结构的集装袋。

Our company can sew container bags of various thicknesses and specifications with the support of different models of FIBC sewing machines, over-locking machines, and chain lock integrated machines. And our workers are skilled in operation and the sewing stitches are excellent so that the stitches is tight and do not leak. In addition, our dust-free production workshops can ensure that the container bags are clean and tidy. The aforementioned enables our company to undertake all kinds of high-standard and complex-structure container bags, even in food grade and dangerous grade.

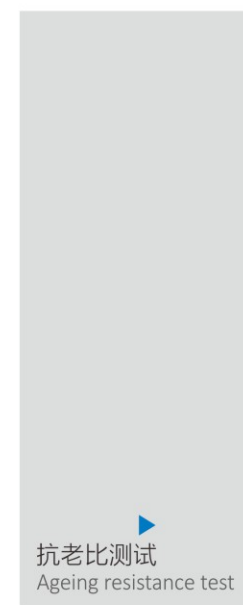

检验 / 工序 Checkout Process

拥有先进检验设备，专业的质检团队，在各个生产环节实行严格的把关，做到不合格的原材料不投产，不合格的半成品不转序，不合格的产品不出厂，真正保证产品质量。

Our company has first class inspection equipment and professional quality inspection team that takes strict control in each production procedures to ensure that unqualified raw materials are not put into production, unqualified semi-finished products are not transferred to the next process, and unqualified products can not leave the factory, so as not to bring quality hidden risks to customers.

我们的优势

Our advantage

每年定期参加各类高层次人才招聘会，不断招收高学历管理及技术人才，同时装备国内外先进的集装袋研发、生产和检测设备，打造全面、尖端的技术研究团队。我们不断追求高质量产品和优质客户体验，从而保证每件产品均达到客户的满意。

Regularly participates in the annual a variety of high-level personnel recruitment; Continually recruiting high-level management and technical personnel; advanced research and development, production, testing equipment; Cutting-edge technology research team; We continually pursuit the perfect quality and excellent customer experience, to ensure that every batch products meet customers' special satisfaction.

产品质量承诺

Quality commitment

为了保证产品质量，我司所用原材料均选用国内外优质材料，在严格的质量监管下，产品质量均达到国际标准要求；我们诚邀用户对生产和检测过程进行全程监督，待产品检测通过后发货。

In order to guarantee the product quality, all our raw materials are choose from the qualitative brand from domestic and abroad. All product can reach the international standards under strict quality control.
